

RESIDENT GRANDPARENT PROGRAM

In our world today many children and youth do not live very close to their grandparents. Even when they do, it is often difficult for young people to relate to the “older generation”. Because the Ministry of Camping believes that it is very important that all people learn from one another, we are sponsoring the **RESIDENT GRANDPARENT AT CAMP** program.

The way this program works is simple. You as a “grandparent type” (you may not actually be a grandparent) agree to attend one of our summer camps for the entire session. You will not be used as one of the regular cabin leaders unless you desire to. You will be housed separately from the campers. You will, however, spend most of the day with the campers. You will eat with them, share with them in worship and small groups, and just talk with them one-on-one during free time. The purpose of your being at camp is to establish a personal relationship with the campers. In other words, we want you to share yourself with the campers.

The qualifications are important:

- You must be a person that enjoys being with children of the age level of the camp you attend.
- You must be a person in good enough health to stand up to the activities of camp (mostly lots of walking and no air conditioning during the day)
- You must be willing to share yourself with others.

You will be provided with semi-private sleeping accommodations with air-conditioning, good nutritious meals, and free time to rest if you choose to.

If you are interested in the program or want more information, fill out the form below and return it to the address listed below.
